

Two roads converge ...

Dear Smiley: I have always been a strong advocate of highway overpasses to help move Baton Rouge traffic.

The new intersection at Siegen Lane and Airline Highway is better than an overpass, and has to be much less in cost.

The person that came up with this idea should win the "Highway Nobel Prize," or whatever they give a genius engineer.

I've tried it at different times of the day, and it is still the best ...

I sure hope they will use this plan on many of our "deadlocked" intersections.
